

# Acrylic Paint Pouring at the Pine County Drop In Center

Tuesday, June 28, 2022

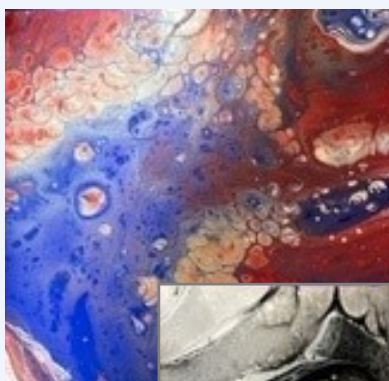

Pine City Senior Center

670 Main St South; Pine City

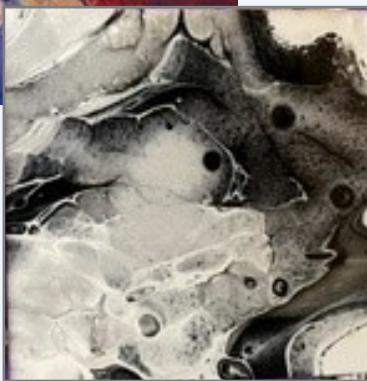

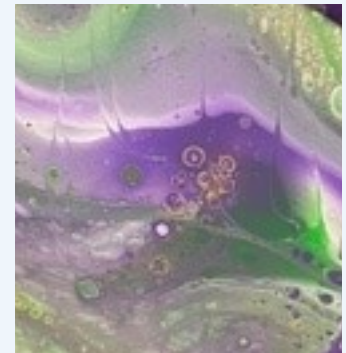

10:30am—12:30pm

Paint Pouring is a unique way of working with acrylic paints which are poured directly onto a canvas. The canvas is then

tilted different directions to make the paint run, flow, and drip. This technique creates a unique, one-of-a-kind piece of art. These five photos

are examples of finished paint pouring projects.

Participants will need to leave their painting at the Drop In Center until the following week because the paint is very thick and needs a week to completely dry.

This event is hosted by the East Central Innovation Team.
